

Eagle River Road - MP 5.3 to 12.6

ADOT&PF Project No. STP-0550(15)/53943

BACKGROUND

The Eagle River Road is a rehabilitation project to extend the service life of the road and enhance both safety and capacity. The project involves resurfacing, and widening of the current road based on an ongoing analysis of the crash history. The project begins at Upper Terrance Drive (MP 5.3) and continues to the end of the paved roadway where the Eagle River Nature Center is located (MP 12.6). Since the beginning of the project we have met with affected property owners and sought public input.

PUBLIC MEETING OPEN HOUSE

Date: Thursday, December 7, 2006
Time: 7-9 pm
Location: Gruening Middle School, Multipurpose Room
9601 Lee Street, Eagle River

WHERE ARE WE NOW?

We are completing the detailed design drawings for the project, working with the property owners to acquire right-of-way and fine-tuning the design where necessary to keep impacts to a minimum. There will be a public meeting/open house on December 7, 2006 at Gruening Middle School. Come see the design for Eagle River Road and provide your feedback to the project team.

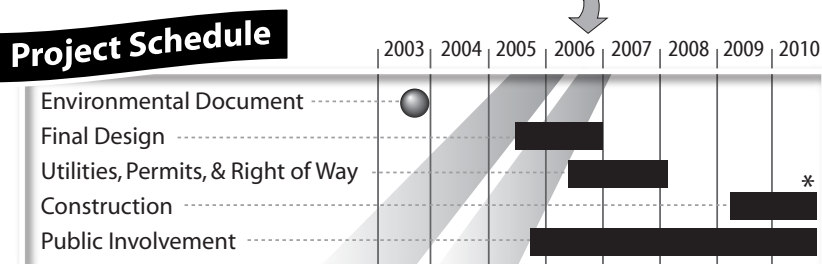

Where Can We See Current State of Design?

If you can't make it to the meeting, or if you want to preview the design, please visit the project web site (www.eagleriverloop.com/eagleriverroad). Select "documents" page and click on "Current Detailed Design Alignment Sheets" to access the drawings.

What About Right -Of-Way Impacts?

If you have a question about the right of way acquisition process, or would like information about the right-of-way impact, you may contact the project team at any time with a phone call or through the project web site. Lynda Hummel is the Alaska Department of Transportation Right-of-Way agent working on this project. You can reach Lynda at 269-0710. Her e-mail address is lynda_hummel@dot.state.ak.us.

we are here!

* Depends upon availability of funding

What's happening with Eagle River Loop Road?

The design of Eagle River Loop is scheduled to be completed in March of 2007. It will go to bid in mid-April and construction should start at the end of May/beginning of June. We are anticipating two full years of construction with substantial completion estimated to occur in October of 2008.
